LATEX EXAMINATION GLOVES

Disposable gloves made from natural rubber latex, ideal for medical, healthcare, and lab use. They are tested and proven safe against dental infection and skin irritation.

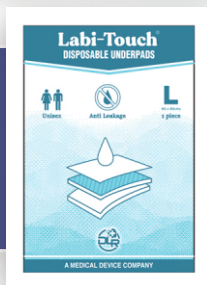

Sizes: XS, S, M, L Packaging size: 20 pcs, 30 pcs, 100 pcs

NITRILE EXAMINATION GLOVES

Disposable gloves made from synthetic nitrile rubber, ideal for medical, healthcare, and lab use. Latex-free and safe for allergy-prone users.

Sizes: XS, S, M, L Packaging size: 20 pcs, 30 pcs, 100 pcs

UNDERSHEET

Essential for managing incontinence, protecting surfaces, and ensuring comfort in medical or home settings. Available in disposable or reusable options for hygiene and cost-effectiveness.

Size: 60 CM x 90 CM

PLAIN SHEET BLUE

A durable and versatile sheet, commonly used in healthcare settings for patient care, bed protection, and surgical procedures. Made from high-quality material, it ensures comfort, hygiene, and easy maintenance. The blue color provides a clean and professional appearance, making it ideal for use.

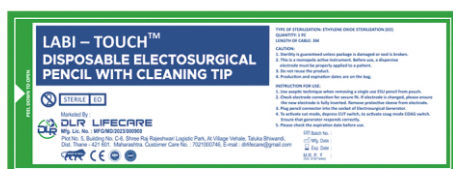

Size: 120 CM x 210 CM

GREEN SHEET

Disposable sheet providing a clean, protective barrier to maintain hygiene and reduce infection risks during surgical procedures or medical tasks. Convenient and easy for infection control.

Size: 140 CM x 150 CM

ELECTROSURGICAL PENCIL WITH CLEANING TIP

A tool used in electrosurgery for precise cutting, coagulation, and tissue removal. Reduces bleeding and is ideal for surgeries like dermatology, general, plastic surgery.

Key Uses : Surgical Incisions | Cauterization | Tissue Removal | Laparoscopic Surgery

ON/OFF DIALYSIS DRESSING KIT

A dialysis dressing kit is used to care for dialysis access sites like AV fistulas, grafts, or central venous catheters. It helps maintain sterility and prevent infection.

Key Uses : Safe Connection & Disconnection | Prevents Infection | Controls Blood Flow Supports Anticoagulation | Post-Dialysis Care | Reduces Preparation Time

PROTEX

3-PLY FACE MASK

Triple-layer mask with:

Outer Layer – Blocks dust/droplets

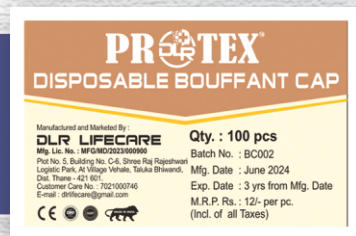

Middle Layer – Melt-blown filter for bacteria & virus protection

Inner Layer – Soft, moisture-absorbing fabric

Single-use. Comfortable fit. Custom packaging available.

Product Variants:

1. Face Mask with Loop Loop
2. Face Mask with Soft Loop
3. Black Face Mask

BOUFFANT CAP

Lightweight, disposable head cover made from non-woven fabric. Designed to maintain hygiene and prevent hair contamination in medical, surgical, and cleanroom environments.

Ideal for: Doctors, nurses, lab technicians, food industry personnel.

Surgical Cap Sizes: 18 inch, 21 inch

Z SAFETY KIT / PPE KIT

A comprehensive personal protection kit designed for frontline workers and healthcare professionals.

43 GSM, 4-Tie Knot

Includes: Mask, Cap, Hand Towel

SURGICAL GOWN

Sterile, fluid-resistant gown made from breathable SMS fabric. Provides full coverage, and protection during medical procedures. Comfortable fit with secure cuffs and tie closures.

43 GSM, 4-Tie Knot

Includes: Mask, Cap, Hand Towel

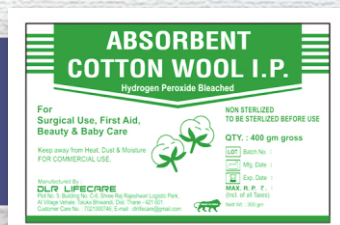

SANITIZER

Fast-acting, alcohol-based hand sanitizer that kills 99.9% of germs. Quick-drying, non-sticky formula suitable for frequent use without water. Ideal for medical, industrial, and personal hygiene.

Size: 100/500 ml 5 lit

CURETEX

ABSORBENT COTTON WOOL

Soft, natural cotton used for medical, cosmetic, and personal care. Ideal for wound cleaning, applying antiseptics, skincare, post-blood sample care. Also used in labs for liquid absorption.

Available Sizes: 10g, 50g, 100g, 150g, 300g, 400g (Net)

Note: No paper used in rolling. Store in a clean, dry place.

● Dressing & Wound Care

SOFT ROLL BANDAGE

Soft, flexible bandage used for wound care, support, and padding. Offers strength, stretch resistance, and helps manage swelling and discomfort. Ideal for post-injury or post-fracture care.

Sizes: 10 cm x 3 m, 15 cm x 3 m.

GAMJEE ROLL

A Gamjee Roll is a thick, absorbent medical bandage used for wound care, padding, and support. It features a cotton core that absorbs fluids, keeping the wound dry and reducing infection risk.
Sizes: 10 CM x 3 MTR, 15 CM x 3 MTR & 10 CM x 2.7 MTR, 15 CM x 2.7 MTR

ELASTIC ADHESIVE BANDAGE

Stretchable bandage with adhesive backing, ideal for joint support, compression, and swelling control. Conforms to body shape, offers secure fit without clips, and is breathable for comfort.
Sizes: 10 cm x 1 m, 10 cm x 4/6 m (stretched length).

CREPE BANDAGE

Elastic cotton-polyester bandage for light compression and support. Ideal for sprains, strains, swelling, post-surgery care, and securing dressings. Reduces pain and promotes healing.
Available Sizes: 6 cm, 8 cm, 10 cm, 15 cm.

CANNULA FIXATOR

An elastic adhesive bandage used to securely hold IV cannulas in place, reducing movement, discomfort, and risk of complications.
Size: 5 CM x 6 CM

● Dressing & Wound Care

GAUZE CLOTH

Disposable sheet providing a clean, protective barrier to maintain hygiene and reduce infection risks during surgical procedures or medical tasks. Convenient and easy for infection control.
Size: 90 cm x 9 mtr, 90 cm x 18 mtr

ABDOMINAL MOP

Used during abdominal surgeries to absorb blood, bile, and other fluids, helping maintain a clean surgical field and reduce infection risk.
Size: 25 CM x 40 CM, 8 Ply

COTTON ROLLER BANDAGE

100% cotton, soft, and breathable bandages used for wound care, dressing support, and mild compression. Gentle on skin and available in various sizes.
Size: 5 cm x 3 y, 7.5 cm x 3 y, 10 cm x 3 y, 15 cm x 3 y
Jumbo Roll Sizes: 5 cm x 9 mtr, 7.5 cm x 9 mtr, 10 cm x 9 mtr, 15 cm x 9 mtr

GAUZE SWAB

Cotton-made, highly absorbent swabs used for cleaning wounds, absorbing fluids, and applying medication. Available in sterile and non-sterile forms for safe use in medical settings.
Size: 5 CM x 5 CM, 7.5 CM x 7.5 CM, 10 CM x 10 CM, 8 ply

CHLORHEXIDINE GAUZE DRESSING

Sterile gauze infused with chlorhexidine, an effective antiseptic for preventing infections in wounds, surgical sites, ulcers, and diabetic foot sores.
Size: 10 CM x 10 CM (Pack of 10)

● Anesthesia & Respiratory

NEBULIZER MASK :

Delivers aerosol medication to lungs for asthma and COPD relief.

NASAL CANNULA :

Delivers low-flow oxygen through the nostrils; lightweight and comfortable.

HI-CON MASK

Provides high-flow oxygen for critical care and emergency use.

OXYGEN MASK

Delivers moderate oxygen levels; covers nose and mouth for respiratory support.

NEBULIZER WITH T-PIECE

Features a one-way T-piece valve for controlled, efficient aerosol delivery.

THREE BALL SPIROMETER

A breathing circuit is used in anaesthesia to deliver oxygen and inhalation gases to the patient while maintaining proper ventilation during surgery.

● Infusion Therapy

REGULAR IV SET

Cost-effective IV set with rubber latex bulb and non-transparent tubing. Ideal for dialysis centres, clinics, and government supply. Delivers basic IV functionality at a low cost.

ECONOMY IV SET

Standard IV set for safe fluid, medication, and nutrient delivery. Features soft, kink-resistant PVC tubing, smooth roller clamp, and particle filter. Suitable for hospitals, clinics, and general use.

● Anesthesia & Respiratory

HME FILTER

A Heat and Moisture Exchanger filter used to warm and humidify air delivered to the patient during mechanical ventilation or oxygen therapy, preventing dehydration of airways.

VENTILATOR KIT

A complete set of equipment used with a mechanical ventilator, providing respiratory support for patients who cannot breathe adequately on their own.

GUEDEL AIRWAYS

A curved plastic airway device used to maintain an open airway in unconscious patients.

BAIN CIRCUIT

A breathing circuit used in anaesthesia to deliver oxygen and inhalation gases to the patient while maintaining proper ventilation during surgery.

AMBU BAG

A manual resuscitation device used to provide positive pressure ventilation to patients who are not breathing or have insufficient breathing.
